Post COVID-19 workspace

Wayfinding

This document gives you standard and custom options for wayfinding in offices and other buildings, where people come together and need guidance in how to keep distance. Indicators that give insight in the flow and proportions of the building.

Inlays

Using the capabilities of our XY cutting machines we create graphic additions in tiles that will clearly present routing to the users of buildings.

By using the size of our modular product, in skinny planks 25 x 100 cm and squares 50 x 50 cm, it's easy to follow a grid that adheres the local regulations on social distancing.

Dimension guide

The need for physical distancing will need some re-thinking of office spaces designed for connection and collaboration between people.

Our concept design team have been exploring solutions for new and existing spaces. We have created standard arrows to drop into to your existing modular flooring, and bespoke wayfinding systems for new spaces.

Our arrow offer has specific colours and 4 arrow shapes. We can dispatch between 1 and 100 tiles of each design in 1 week*

Our bespoke offer uses any tile, and has 9 wayfinding shapes. We can dispatch between 1 and 100 tiles of each design in 2 weeks*
